St. Valentine's Day has roots in several **1 (differ)** legends. One of the **2 (early)** popular symbols of the day is Cupid, the Roman god of Love, who is represented by the image of a young boy with a bow and arrow.

St. Valentine's Day is now a day for sweethearts. It is the day that you show **3 (you)** friend or loved one that you care. You can send candy to someone you think is special. Or you can send **4 (rose)**, the flower of love. Most people send valentines, a greeting card named after the notes that St. Valentine wrote from jail. Valentines can be sentimental, romantic and heartfelt. They can be funny and **5 (friend)**. If the sender is shy, valentines can be anonymous.

Americans of all ages love to send and receive valentines. Handmade valentines are created by cutting hearts out of coloured paper. Valentines can be heart-shaped, or have hearts, the symbol of love, on them. In elementary schools, **6 (child)** make valentines for their classmates and put them in a large decorated box, similar to a mailbox. On February 14, the teachers open the box and distribute the valentines to each student. After the students read their valentines, they have a small party with refreshments.
